

For Immediate Release

Oneworld Energy Inc. Hires New CFO

Peter Kampian Appointed CFO

Toronto, Ontario– September 21, 2009 – Oneworld Energy Inc., an emerging leader in the design, installation, management, operations and servicing of both wind and solar power installations, today announced the appointment of Peter Kampian as Executive Vice President Finance and CFO of Oneworld Energy, effective October 1, 2009.

Peter is a veteran of the renewable energy sector and has held various senior level management positions in private and public companies. He has over 25 years of experience in investment management, electrical generation, energy marketing, manufacturing, and public accounting. He was Chief Financial Officer of Algonquin Power Income Fund, a renewable energy income fund operating in Canada and in the United States. Peter was also Vice President of Finance of a gas and electricity marketer. Peter is a Canadian Chartered Accountant and articulated with PriceWaterhouseCoopers. He holds a Bachelor of Business Administration degree from Wilfred Laurier University. During his career, Peter obtained a wide range of experience in both public and private companies including acquisition, financing, treasury, accounting, taxation, human resources and information technology.

Mr. Chuck Allen, President and Chief Executive Officer of Oneworld Energy, commented, “We are pleased to welcome Peter Kampian to our senior team as Executive Vice President Finance and CFO. His proven track record as a CFO within the renewable energy sector, as well as his extensive experience with high growth and public companies, will be a perfect complement to our management team as we rapidly expanding our operations throughout the Americas and Europe.”

The Company also announces that Mark Lawrence has resigned as CFO to pursue other opportunities.

About Oneworld Energy Inc.

Oneworld Energy Inc. is a diversified international renewable clean energy company that commenced operations in 2003. The company is focused on developing, owning and servicing

renewable energy assets in diversified geographic markets. The company has 80 employees located in offices in Toronto and Goderich, Ontario, Copenhagen, Denmark, Erfurt and Munich, Germany as well as Long Island, New York. The company is aggressively sourcing wind and solar projects that it can own and operate and is also active in all aspects of the value chain in both the wind and solar sectors – design & develop, construction, and operating & maintenance through its various operating units. To-date, Oneworld has designed, planned and constructed over 50 MW of wind and solar energy farms for clients in Canada, Europe and the United States.
